

# SILAGE MASTER 3000

THE PROCESSING MONSTER

Revolutionizing  
the Livestock  
Sector Through  
Quality Feeds

## Vision

Ensuring availability of quality and affordable silage through use of innovative technologies.

## Mission

To provide efficient silage -making technologies, ensuring quality fodder for farmers.

Silage Master 3000

# SILAGE MASTER 3000

## THE PROCESSING MONSTER

**SILAGE MASTER 3000** is a climate smart solution engineered in Europe with a purpose to process and enhance *sustainable access to quality and affordable fodder* for livestock

*eg. maize, wheat straw, alfa alfa, sugar beet pulp, nappier grass, sorghum, crop and market remains ie fruits and vegetables*

# Why

## SILAGE MASTER 3000 THE PROCESSING MONSTER

Increases production of agroecological specific cultivars:

- promotes use of **climate-resilient crop varieties** to help farmers adapt to climate change.

High processing capacity:

- capable of producing **Upto 10,000 kgs of silage per hour**.

Increases efficiency and reduces wastage:

- performs multiple processes by **chopping, mixing, conveying, weighing, compacting, vacuuming and sealing**.

Appropriate packaging

25 - 50Kgs packed bag for easy transportation and storage

Quality

Vacuuming retains quality, extended 2 years shelf life, **mitigates against drought**

**Silage from SILAGE MASTER 3000 has very high nutrition retention, excellent fermentation efficiency, no storage losses, very high ease of handling, very excellent quality, bags can be reused and very low cost of ensiling**

# SILAGE MASTER 3000

## Specifications

- **Machine Type:** Mobile Type fitted with 1000kg mixer
- **Processing Capacity:** Upto 10,000 kg per hour.
- **Filling Range:** 25 -50 Kgs.
- **Power Requirements:** 25 KV - 3 phase @380V ( 15KV for Chopping, 10KV for processing)
- **Operating System:** PLC Windows 7 with touch screen controls (with ethernet remote access).
- **Weighing System:** Load cell
- **Compression:** Double sided unit 8 bar
- **Recording:** Daily production master report.
- **Vacuuming :** Time adjustable unit 0 - 10 sec
- **Warranty:** 2 years.
- **Quality Control:** EU Standards.
